Work, read, relax, or sleep in the lap of luxury with a Library Murphy Bed. An open bookcase, 30" wide side cabinets, and a matching valance provide an elegant, built-in library for storing books or favorite items. The sliding central bookcase parts in the middle to reveal a queen-sized bed.

The bed swings up and down easily with a spring-balanced mechanism, and a built-in strap holds bedding in place when the bed is stowed. A pillow storage box keeps pillows and extra blankets nearby, and a folding headboard prevents items from falling behind the bed. LED lighting can also be integrated into the cabinets to enhance the room's atmosphere and draw attention to items on display.

Twice as nice

Combine an office and a bedroom in one single space with a Flip-up Desk Murphy Bed. When you're ready to sleep, just fold down the desk and pull down the cabinet to reveal a twin, full, or queen-sized bed. In the morning, you can stow the bed, lift the desk top, and lock the legs into place to create a useful work area again.

The flip-up desk completes the transition from sleeping space to working space. Add an optional filing drawer to organize current projects or important papers right next to the place you work.

Murphy Bed

All tucked in

Hidden neatly behind doors, a Bi-fold Murphy Bed transforms any space into a comfy bedroom at a moment's notice. Doors open wide and fasten into place with locking hinges, giving you easy access to a twin, full, or queen-sized bed. There's even room behind the open doors for additional storage cabinets or shelves, helping you make the most of every inch of available space.

Murphy Bed

Night and day

By day, it's an office with open bookshelves, deep cabinets, and a convenient desktop. By night, it transforms into a Side-tilt Murphy Bed with a built-in pillow box, then disappears just as easily when you need to free up floor space again. Thick Forterra® panels in a contrasting finish are a fashionable and practical choice for tops, a work surface, and visual accents.

Clever solutions include a reach-in recycling center, sports lockers with Silver Track slatwall and hooks, a durable butcher block work surface for projects, and even room for a utility sink.

One-inch thick shelves and robust construction stand up to tough conditions, while wall-mounted cabinets keep stored items off the damp floor and allow for easy cleaning underneath.

Showstopping style

A rich Bluff finish along with aluminum handles create an upscale atmosphere you'll be proud to show off. Wall-mounted cabinets come in a variety of sizes, letting you tailor a perfect solution for supporting your hobbies and gear. Add adjustable shelves, pull-out recycling bins, and full-extension drawers to keep everything looking shipshape.

The Silver Track's baskets, shelves, hooks and racks keep frequently used items conveniently within an arm's reach.
